

Oxides and screening colours for vitreous enamel

These products are not available for retail sale but are supplied to commercial manufacturers on pre-agreed terms. Enquiries welcome by phone or email.

Oxides and screening colours for vitreous enamel

For over 50 years, the manufacturer has been involved in the manufacture and supply of colouring oxides to the vitreous enamel industry.

We are familiar with most vitreous enamel frit manufacturers' products. Colours can be formulated either to customers' unique ideas, or, to Ral, Pantone, NCS, etc., references. We have a confidential matching service available for new and existing customers.
